MACRO ECONOMIC ENVIRONMENT

The year 2012 had been a year of slow growth world over and as per IMF forecast Global Economy is likely to show a growth of 3.3% during 2013 as compared to growth of 3.2% during 2012. The Global Economies witnessed a subdued growth with diverging growth paths across major economies. US economy which has registered a modest recovery is again subject to the adverse impact of the budget sequestration which will gradually gain pace during 2013. Japan's economy has shown signs of improvement on account of monetary and fiscal stimulus undertaken. The sovereign debt crises and the danger of a banking system meltdown in peripheral euro zone countries coupled with contraction in its major economies like Germany has resulted in negative growth in Euro zone.

The growth in the Emerging Market Economies which are viewed as growth engines of the world economy world over; have also slowed down with Brazil and South Africa registering accelerated growth where as Russia, China and India recorded a lower growth.

According to the Central Statistics Office's advance estimate of GDP growth, Indian Economy is expected to grow at 5% during the year 2012-13 as compared to a growth of 6.21% registered during 2011-12. This has been mainly on account of weak industrial activity compounded by domestic supply bottlenecks and slackening of external demand. This has also slowdown the growth in the service sector which has been the main driver of the growth.

The Reserve Bank of India in order to strike a balance in growth- inflation dynamics have initiated various measures during 2012-2013 to provide greater liquidity to financial system. This has resulted in moderating the headline inflation within its acceptable level. The food inflation as measured by new combined (rural and urban) consumer price index (CPI) remains in double digit is a cause of concern. The measures initiated are expected to result in moderate growth in GDP in the second half of 2013-2014.

REVIEW OF OPERATIONS

The Company has further extended its growth and registered a top line growth of 76.27% during the year under review in spite of negative scenario like continuous increase in Inflation, lack of significant policies by Government, lack of demand by consumers in Textile sector, increase in input cost, bad capital market condition, falling liquidity or liquidity crises in Equity Market, lack of demand in case of software activities, fear of bad loan in Money market etc.

The Company registered a gross Turnover of ₹ 3547.06 Lac as compared to ₹ 2012.33 Lac in previous financial year. PBIT Margin during the year remains ₹ 23.89 Lac in comparison to last years' figure of ₹ 6.01 Lac whereas Net Profit remains at ₹ 16.50 Lac in comparison to last years' figure of ₹ 4.05 Lac and thus registered a growth of 44.79% in term of gross profit and a growth of 48.39% in term of Net Profit for the year under review.

In term of Segment wise performance, your Company has achieved a Gross Sales of ₹ 181.69 Lac in Textile Segment, Gross Sales of ₹ 3303.72 Lac in Trading / Investment activities in Shares and Securities and Financial Services Activities. The Company has also earned an Interest of ₹ 119.62 Lac during the year. However the Company has earned a combined loss of ₹ 58.14 Lac from FNO Segment of NSE and Commodity Trading during the year.

BUSINESS SEGMENT

During the year, the Company was operating into following Business segments -

- Trading of Grey & Synthetic Fabric

- Investment in Shares & Securities
- Loans Syndication (Inter Corporate Deposits)

OPPORTUNITIES

Textile Industry

At current prices the Indian textiles industry is pegged at US\$ 55 billion, according to the Ministry of Textiles. According to the Confederation of Indian Textile Industry (CITI), the Indian textiles industry has the potential to reach US\$ 110 billion by the year 2014.

The textiles industry currently contributes about 14% to industrial production, 4% to GDP, and 17% to the country's export earnings, according to the Annual Report 2010-11 of the Ministry of Textiles. The industry accounts for nearly 12% share of the country's total exports basket.

Indian textile sector is the second biggest employment generator in the economy, after agriculture. It provides direct employment to more than 35 million people.

The Indian textiles industry is unique and extremely varied, with the hand-spun and hand-woven sector at one end of the spectrum, and the capital intensive, sophisticated mill sector at the other. The decentralized power-looms/hosiery and knitting sector form the largest section of the Textiles Sector.

India's textile exports rose from US\$ 22.4 bn in FY11 to US\$ 26.8 bn in FY12. The same has grown at an average annual rate of 8.8% in the last 5 years.

The Indian textiles industry has enormous opportunities for domestic as well as international investors given its consistent growth performance, abundant cheap skilled manpower and growing domestic demand. With time, India has surged ahead of other countries and positioned itself as a value-added manufacturer with a varied material base, an educated and English-speaking class of executives with high product development and design orientation.

Financial Activities

The Indian money market is "a market for short-term and Long term funds with maturity ranging from overnight to one year and includes financial instruments that are deemed to be close substitutes of money. It is diversified and has evolved through many stages, from the conventional platform of treasury bills and call money to commercial paper, certificates of deposit, repos, FRAs and IRS more recently.

The Indian money market consists of diverse sub-markets, each dealing in a particular type of short-term credit. The money market fulfills the borrowing and investment requirements of providers and users of short-term funds, and balances the demand for and supply of short-term funds by providing an equilibrium mechanism.

Capital Market Activities

In Stock Market or Capital Market, the first and foremost thing of strength is its ability to provide high return. SEBI is a regulatory body of Indian stock market which protects the interest of the investors which is an added benefit of Stock Market. Large number of securities which provides medium for investment and thus people can make money by way of investing wisely in Stock Market. Large numbers of Brokers are there in Market who plays a role of facilitator for investment.

THREATS & CONCERNS

The Indian economy is caught between low growth and stubbornly high inflation. Last month, the International Monetary Fund (IMF) revised the year-over-year GDP growth forecast of India to 5.7 percent for 2013, down from its January estimate of 5.9 percent. The IMF attributed structural

factors as the primary reasons for the poor performance, rather than the cyclical factors cited by the government last month. Additionally, the IMF expects consumer-price inflation to remain at around 10 percent in 2013 due to a rise in food and fuel prices. Lately, there have been signs of easing inflationary pressures. The wholesale-price inflation has steadily decreased since late 2012, while consumer-price inflation went below 10 percent this May, as the economy operates below capacity. However, the government's attempt to reduce the fuel subsidy bill by raising administered fuel prices will likely reverse the fall in inflation in the remaining part of the year.

The situation for India is unique because both fiscal and monetary policies have had limited flexibility to bail out the economy. High fiscal and current-account deficits restrict the government's ability to undertake proactive stimulus programs to boost the economy. The level of domestic inflation remains higher than the Reserve Bank of India's (RBI's) comfort level, which limits the RBI's ability to ease monetary policy further. Despite such pressures, the RBI is expected to reduce the policy rates, though marginally, in order to boost economic activity in the country.

Fiscal deficit is expected to be 5.3 percent of GDP in 2012–2013, while the current account recorded the largest-ever deficit of 6.7 percent of GDP in the third quarter of 2012–2013. The government's strategy of fiscal consolidation has repeatedly gone off course since 2008 due to a series of unfavorable developments. Since last September, the government has taken bold measures to cut down fuel subsidies to prop up public finance, helping the government to restrict the fiscal deficit within the revised target of 5.1 percent of GDP. However, with general elections being just a year away, progress in this direction will be limited and even likely reverse.

In term of Textile Industries, most large textile companies in India, realizing the growth potential in domestic retailing, have drawn up aggressive strategies to expand their footprint in the domestic market. These include companies like Welspun and Himatsingka, which were traditionally export-oriented, as also Raymond, which has been the pioneer in domestic textile retailing.

In addition to high raw material costs, an appreciating rupee and an increase in employee's dearness allowance and shortage of labour are burning a hole in textile company's pockets

Although home textile companies have been aggressive on the capacity expansion front, realizations have remained stable. But as new capacities come on-stream and utilization levels pick up, this is unlikely to continue. This is because although India continues to feature amongst the lowest cost producers for the US and EU markets, competitors like Pakistan and Turkey are cannibalizing its market share. Moreover, with the possibility of slowdown in the western economies looming large, a slowdown in demand cannot be ruled out.

RISK MANAGEMENT

We follow Enterprise Risk Management (ERM) tool designed to clarify the risk levels and encourage behavior throughout the Group. The process considers opportunities and threats to short and medium term objectives as defined. ERM ensures the coordination and development of risk management activities throughout all decision making levels and communicates all significant risks to the top level of management. The tool is designed to provide the risk score measures for each of the potential risk as well as its financial, reputational and operational impact by way of quarterly report. The report provides for categorization of risk into threat or opportunity and provides brief statement on its cause, impact, treatment, control measures, level of confidence in the controls, acceptability of identified risks, potential improvements, risk improvement plans critical success factors and target dates to control the risk. The risk assessment is done annually with quarterly updates. The process has been designed to deliver timely results.

The Company has aligned its policy on risk assessment in line with global approach and risk assessment reports are reviewed on regular intervals. The Company has adopted a focused approach towards risk management in the form of a corporate insurance program which has the goal of optimizing the financing of insurable risks by using a combination of risk retention and risk

transfer. The program covers all potential risks relating to business operations of the Company at its various locations.

The Company's business critical software is operated on a server with regular maintenance and back-up of data and is connected to centralized computer center with two physically separated server parks operated by the Company. The system's parallel architecture overcomes failures and breakdowns. Reliable and permanently updated tools guard against virus attacks. The global communication network is managed centrally and is equipped to deal with failures and breakdowns. Updated tools are regularly loaded to ensure a virus free environment.

INTERNAL CONTROL SYSTEMS AND ADEQUACY

The Company has implemented a comprehensive system of internal controls and risk management systems for achieving operational efficiency, optimal utilisation of resources, credible financial reporting and compliance with local laws. These controls are regularly reviewed by both internal and external agencies for its efficiency and effectiveness. Management information and reporting system for key operational activities form part of overall control mechanism.

The Company has retained the services of independent firms of professionals to function as internal auditors and provide reports on various activities covering observations on adequacy of internal controls and their recommendations. Findings of internal audit reports and effectiveness of internal control measures are reviewed by top management and audit committee of the Board. During the year, internal audit team of Company performed audits of major operational areas of the Company and carried out elaborate checks and verification and shared their findings with top management for remediation of minor gaps wherever required.

HUMAN RESOURCES

Human resources development is given high weightage and Company employs the best HR practices to ensure a healthy and motivating work environment for its employees. Employee skills are constantly upgraded and honed by providing training suiting to individual requirements. Besides, in-house lectures and workshops are also conducted on a regular basis to stimulate healthy exchange of ideas.

CORPORATE SUSTAINABILITY AND SOCIAL RESPONSIBILITY

The Company constantly strives to meet and exceed expectations in terms of the quality of its business and services. The Company commits itself to ethical and sustainable operation and development of all business activities according to responsible care and its own code of conduct. Corporate Social Responsibility is an integral part of the Company's philosophy and participates in activities in the area of education and health.

CAUTIONARY STATEMENT

Certain statements under "Management Discussion & Analysis" describing the Company's objectives, projections, estimates, expectations or predictions may be forward looking statement within the meaning of applicable securities laws and regulations. Although the expectations are based on reasonable assumptions, the actual results could materially differ from those expressed or implied, since the Company's operations are influenced by many external and internal factors beyond the control of the Company. The Company assumes no responsibility to publicly amend, modify or revise any forward looking statements, on the basis of any subsequent developments, information or events.

COMPLIANCE

The Compliance function of the Company is responsible for independently ensuring that operating and business units comply with regulatory and internal guidelines. The Compliance Department of the Company is continued to play a pivotal role in ensuring implementation of compliance functions in accordance with the directives issued by regulators, the Company's Board of Directors and the Company's Compliance Policy. The Audit Committee of the Board reviews the

performance of the Compliance Department and the status of compliance with regulatory/internal guidelines on a periodic basis.

New Instructions/Guidelines issued by the regulatory authorities were disseminated across the Company to ensure that the business and functional units operate within the boundaries set by regulators and that compliance risks are suitably monitored and mitigated in course of their activities and processes. New products and process launched during the year were subjected to scrutiny from the Compliance Standpoint and proposals of financial services were screened from risk control prospective.

The Company has complied with all requirements of regulatory authorities. No penalties/strictures were imposed on the Company by stock exchanges or SEBI or any statutory authority on any matter related to capital market during the last three years.

AUDITORS' REPORT

To
The Members of Jackson Investments Limited

Report on the Financial Statements

We have audited the accompanying financial statements of M/s. Jackson Investments Limited, which comprise the Balance Sheet as at 31st March, 2013, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act"). This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers the internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- a) in the case of the Balance Sheet, of the state of affairs of the Company as at 31st March, 2013;
- b) in the case of the Statement of Profit and Loss, of the profit of the Company for the year ended on that date, and
- c) in the case of the Cash Flow Statement, of the cash flows of the Company for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2003("the Order") issued by the Central Government of India in terms of sub-section (4A) of section 227 of the Act, we give in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the Order.

2. As required by Section 227(3) of the Act, we report that:
- (a) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the Balance Sheet, Statement of Profit and Loss, and the Cash Flow Statement comply with the Accounting Standards referred to in sub-section (3C) of section 211 of the Act.
 - (e) On the basis of the written representations received from the directors as on 31st March, 2013 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2013 from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Act.
